

# 2019 2020

ANNUAL REPORT

reThink >>> your commute™

**reTHINK YOUR COMMUTE IS A PROGRAM OF  
THE FLORIDA DEPARTMENT OF TRANSPORTATION.**

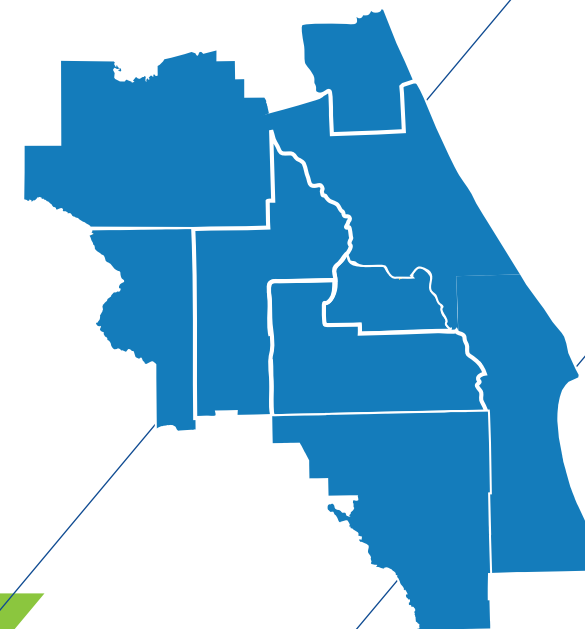

**reThink Your Commute Enjoys Strategic Partnerships  
With The Following Transportation Agencies:**

East Central Florida Regional Planning Council | LakeXpress  
Lake-Sumter MPO | LYNX | MetroPlan Orlando | Ocala Marion TPO  
River to Sea TPO | Space Coast Area Transit Space Coast TPO  
SunRail | SunTran | Votran

We promote smart transportation solutions, like carpools, vanpools, public transit, biking, walking and telecommuting.

District Five's reThink Your Commute Program focuses on the single-occupant commute trip that contributes to peak-hour highway congestion. Using existing or low-cost resources, the Florida Department of Transportation is making a coordinated effort to provide these commuters with alternative forms of transportation that will improve safety, enhance mobility and inspire innovation.

**FDOT DISTRICT 5  
COUNTIES WE SERVE:**

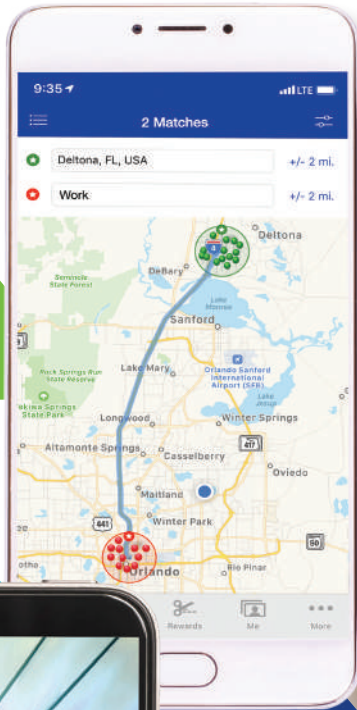

**OUR GOALS**

The reThink Your Commute program will improve quality of life in Central Florida by connecting commuters with alternatives to driving alone. With fewer vehicles on the road, we can:

- ▶ Decrease traffic congestion
- ▶ Improve air quality
- ▶ Conserve natural resources
- ▶ Save people money

# reTHINK YOUR COMMUTE APP

In July 2019, we announced a new tool to help Central Floridians reThink their commute. Offered as both a free smartphone app and desktop website, our new commuting platform combines a powerful ridematching solution with commuter trip tracking and rewards. In its first year of operation, we saw over 25,000 recorded trips representing a reduction of 544,295 vehicle miles traveled, \$314,545 in commuter savings and an offset of 241 tons of CO<sub>2</sub> in the air. reThinkers also burned over 675,000 calories by incorporating active transportation into their commutes.

The reThink Your Commute app is available in both the Apple App Store and the Google Play Store, as well as through our website, [www.reThinkYourCommute.com](http://www.reThinkYourCommute.com).

## SINCE THE JULY 2019 LAUNCH OF OUR APP:

- 11,815 Members
- 28,323 Fewer Trips
- 18,305 Shared Rides
- 11,147 Transit Trips
- 16,176 Carpool Trips
- 2,129 Vanpool Trips
- 4,484 Biking Trips
- 3,025 Walking Trips
- 4,034 Telecommutes
- 554,223 Miles Not Driven
- 25,019 Gallons of Gas Saved
- \$320,359 Money Saved
- 697,942 Calories Burned
- 234 TONS OF CO<sub>2</sub> Emissions Offset

## SIGHTS AND SOUNDS OF OUTREACH

Our team focuses on commuter outreach. Our programs are designed to reduce the total number of commutes – helping employees and employers get to work, save money, and decrease their carbon footprints.

### WORKSITE OUTREACH

We empower the community by providing resources on commute options other than driving alone. We provide useful information about safe cycling, walking, and public transit, as well as guidance on worksite telecommuting and alternative work schedule policies.

### Mobility Week

Successfully launched in Central Florida in 2016, Mobility Week is an annual collection of programming intended to bring attention to safe multimodal transportation choices. reThink Your Commute is proud to support Mobility Week through unique programming and commuter engagement.

## reTHINKING OUTREACH: VIRTUAL PROGRAMMING IN 2020

### Telework Webinar Series

Working from home has taken on new importance as many organizations have transitioned to telework to ensure employee safety and continued business operations. To help employers and employees navigate the shift to telecommuting, reThink Your Commute co-sponsored a three-part telework webinar series with other Florida CAP programs, Commute Connector (FDOT District 1) and Commute Tampa Bay (TBARTA/FDOT District 7). The webinar covered strategies for employers, collaborative technologies, and planning for the future.

### Best Workplaces Virtual Ceremony

Due to COVID-19, our annual recognition of the region's Best Workplaces for Commuters was held virtually on April 30th, 2020. We recognized employers who offer significant transit benefits, robust telework programs, or other innovative commuter initiatives.

### SOCIAL MEDIA ENGAGEMENT

We have **3,012** followers across our platforms of Facebook, Instagram, Twitter & LinkedIn.

The reThink Your Commute program focused on developing its LinkedIn presence – successfully growing the follower base from **80** users before the pandemic to more than **300** by summer.

# DISTRICT 5 CONTINUES TO LEAD THE WAY

## 34 EMPLOYERS DESIGNATED BWC IN 2020

Employers play a big role in commuter choice. We work with companies to encourage the implementation of best practices in offering commuter benefits. The continued efforts have led to the designation of 34 employers on the national 2020 Best Workplaces for Commuters (BWC) list. Congratulations to these 34 outstanding organizations!
